

SIGNING NATURALLY

Homework 2:2

CARDINAL NUMBERS 16–19

As you watch Iva demonstrate these numbers, keep in mind the following:

- begin with the “A” handshape, palm facing you
- twist your hand so the palm faces out to make the second number 6, 7, 8, or 9. (Remember the thumb does not overlap the finger used to make the second number)

Sign the Numbers

Now you count from 16 to 19. Try to sign the number before Joey, then check to see if you've signed it correctly!

Circle the Number

In this activity Joey will sign the number. Practice recognizing and distinguishing between numbers that appear similar to each other.

Circle the number signed:
