

GRAMMAR PRACTICE

Age Numbers

Cinnie will model age numbers for 1 to 20 years old. Replay the tape and practice signing the numbers.

Talking About Children

You will see four signers talk about their children. Observe when and how the signers use ranking to talk about children.

Signer #1: has one child

Signer #2: has two children (contrastive structure used)

Signer #3: has three children (ranking used)

Signer #4: has six children (ranking used)

Notice how the signer talks about the sixth child in the family. He signs the ordinal number sixth with his non-dominant hand and points to it with his other hand.

Watch Signer #4 again and write down the information given about each of the six children.
